

WHEN PLEASING STAKEHOLDERS BECOMES THE PROBLEM

How review cycles turn focused training into corporate clutter

1 OPENING INSIGHT

FOCUSED
TRAINING GOAL

Training rarely fails because it started with the wrong goal. It fails because the goal gets buried.

2 STAKEHOLDER CONCERNS

Legal:
risk

Compliance:
requirements

Managers:
process /
consistency

SMEs:
accuracy

Leaders:
messaging /
business results

All of that matters.

4 THE COST: MANY SMALL ADDITIONS WRECK THE EXPERIENCE

Time

Attention

Clarity

Momentum

5 THE REVIEW CHAIN (AND THE MISSING VOICE)

SME
reviews for
accuracy

Legal
reviews for
risk

Compliance
reviews for
requirements

Managers
review for
process

Leaders
review for
messaging

But who
reviews for
the learner?

7 ROUTE EXTRA CONTENT TO THE RIGHT PLACE

Job aid

Checklist

Policy page

Manager guide

Follow-up
resource

3 KEY INSIGHT

Important does not
always mean instructional.

6 THE DECISION FILTER

Does this help the learner
do something better?

YES

it might belong
in the course.

NO

it may still matter,
but it probably belongs
somewhere else.

8 THE RELATIONSHIP THAT DELIVERS VALUE

Stakeholders
bring input

Learning designer
prioritizes
with purpose

Learner gets
clear, relevant
learning

PROTECT THE PURPOSE. PROTECT THE LEARNER.

A course can survive the review cycle and still fail the learner.
